April 07, 2021

The Human Resource Department

I am very interested in applying for the Research Associate I position. I feel I would be an excellent candidate for this position. Having experienced 10 years in ARUP Specimen Processing. Having obtained two AS degrees (Biology and Biotechnology) and with laboratory experience and other various jobs and duties, I wish to utilize my skills and knowledge for the benefit of the company, department and team. I am a quick and willing learner, a critical and analytical thinker, and have a strong passion for science and its application in the laboratory setting.

I have been trained in many scientific lab techniques and use of equipment commonly seen in a biotechnology laboratory. I have had a leadership role in my past with *Specimen Processing* at *ARUP* and *Conference Operations* at *Snowbird*. I feel I have the tools and drive to succeed in this position.

Thank you for consideration of adding me to your work team. For contacting me please call (801) 604-1677.

Sincerely,

Steven Cody Smith
